ACTIVITIES

ACADEMIC PRACTICES

Tutorial System

The Tutorial System aims to nurture independent thinking and promote research activities in the students. It exposes them to a wider intellectual scholarship and initiates them into the culture of reading. It also helps them develop the art of writing proficiently on various subjects on their own. It keeps students engaged in serious academic works throughout the course. A great deal of responsibilities and opportunities are given to students to learn and do things independently. They are required to do many things on their own such as reading, collecting materials or data, outlining the paper, writing the essay, presenting the paper and participating in discussions, thereby contributing to the training and development of their minds.

Assessment and Examinations

Continuous assessment of students is done through tests, assignments, field trips, projects and various other activities. A student's eligibility to write the End Term University Examinations is based on his/her participation and performance in these activities. Hence, students need to be serious and dedicated from the start because their success will not be determined by a single examination.

Attendance

Education is made effective when it is disciplined and attendance is an integral part of effective education. Good attendance is strictly insisted upon. At least 80% attendance in the class is required for a student to qualify for the End Term University Examinations. Attendance in every official programme/activity of the College and Monday Chapel is compulsory.

DISCIPLINE

Education is an adventure in the quest for excellence and the goal is attained through discipline and hard work. The College realizes the essentiality to guide and discipline students and to orient or initiate them to the desired values. For this, co-operation is sought from the students. They are expected to conduct themselves in a disciplined, dignified and responsible manner. Any act, which causes harm to themselves/others or interferes with the effective functioning of the College is considered as a breach of discipline, for which disciplinary actions are taken. Disciplinary action may take such forms as warning (verbal or written), fine, suspension and even expulsion from the hostel/college.

THE FOLLOWING ARE SOME CONDUCTS ON THE CAMPUS WHICH ARE PROHIBITED

1. Drinking/possessing alcohol and other intoxicating substances.
2. Abusing/possessing drugs and taking other harmful products. No. 1 & 2 will invite severe disciplinary action.

7. Using abusive language or inflicting harm on other students.
8. Cheating, stealing and bribery. Cheating includes copying and adopting other unfair means during class tests/examinations. Stealing is a serious offence. Bribery or any attempt to commit bribery. Bribery is viewed very seriously because it perverts justice.
